

MARK WATER

Hello

Mark Water Treatment Company (MWTC)

was founded with a strong commitment to delivering exceptional customer service in the field of water treatment. Our team consists of seasoned professionals with over a decade of experience, united by a shared vision of fostering a sustainable, environmentally friendly future. We are dedicated to providing innovative and sustainable solutions that effectively address the complex challenges of water treatment.

At **MWTC**, we understand the profound impact our work has on the environment, public health, and local communities. Our highly skilled team is committed to delivering cost-effective, customized solutions that meet the unique needs and specifications of each client. Our services span a wide range of industries, including hospitality, construction, and energy, district cooling, manufacturing, residential, and engineering.

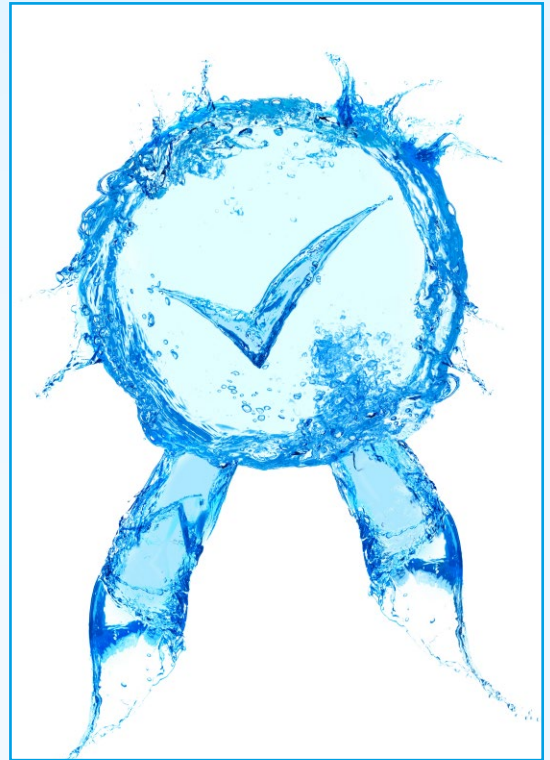

Our expertise encompasses the complete spectrum of water treatment services, from design and engineering to procurement, installation, and maintenance of state-of-the-art water treatment systems. MWTC is at the forefront of technological advancements and treatment processes, all of which strictly adhere to local regulations and international standards. Our solutions are designed to minimize environmental impact, conserve resources, and promote sustainability while ensuring optimal efficiency and reliability.

Our Mission

At **Mark Water Treatment Company (MWTC)**, our mission is to deliver innovative, sustainable, and reliable water treatment solutions that safeguard the environment, enhance public health, and support the unique needs of our clients. We are dedicated to fostering a sustainable future by providing cost-effective, customized services that uphold the highest ethical standards, ensuring quality, efficiency, compliance with local and international regulations, while focusing on resource conservation & minimizing environmental impact. Through our expertise and commitment to excellence, we strive to conserve resources, minimize environmental impact, and empower industries and communities with cutting-edge water treatment technologies.

MWTC is committed to shaping a sustainable future through efficient and reliable water treatment services, ensuring that every project is handled with professionalism and a focus on long-term environmental stewardship.

Our Service Offerings Include

- Cooling Water Treatment
- Swimming Pool Treatment
- Flushing and Passivation
- Analytical Services
- Testing and Commissioning
- Operation and Maintenance
- Disinfection Technology
- Boiler Water Treatment
- Deposition Control
- Microbiological Control Treatment
- Controllers and Dosing Systems
- Filtration Systems

CHEMICALS Boiler Water Treatment

- Cleaning chemicals
- Flushing and chemical cleanouts
- Oxygen Scavengers
- Scale / corrosion inhibitor
- Tannin based corrosion inhibitor
- Phosphate treatment
- Alkalinity Builder – Alkaline based
- Condensate Corrosion Inhibitor-DEHA/Amine base

Reverse Osmosis

- RO chemicals
- BWRO/SWRO – Antiscalants
- micro biocide
- Membrane cleaners
Acidic, Alkaline
- ENZYMATIC membrane cleaners
- Membrane preservative
- Coagulant for SDI control
- Chemical cleaning for RO system

Chilled Water Treatment Products

- Cleaning chemicals
- Flushing and chemical cleanouts
- Nitrite and Molybdate inhibitors
- Silicate and phosphate inhibitors
- Tannin based corrosion inhibitor
- Multi-Metal Corrosion Inhibitor
For systems having dissimilar metals in the system
- Non-Oxidizing Biocide

Waste Water Treatment

- Coagulants and flocculants
- Anionic flocculants-powder and liquid
- Cationic flocculants-powder and liquid
- Antifoam and defoamers
- Poly aluminum chloride PAC
- Aluminum chlorohydrate ACH
- Polyamines
- Dust control foam chemicals
- Enzyme based odor control

Cooling Water Treatment

- Cleaning chemicals
- Flushing and chemical cleanouts
- Zinc based inhibitors
- Silicate and phosphate inhibitors
- Phosphonate corrosion inhibitor
- Multi-Metal Corrosion Inhibitor
For systems having dissimilar metals in the system
- Non-Oxidizing Biocide
Isothiozoline , Quat
- Oxidizing Biocides
- Iron dispersant
- Oil and silt dispersant
- Specialty chemicals for low hardness systems
- Antifoulants, defoamers

Swimming pool and potable water

- Calcium Hypo Chloride
- TICCA Tablets
- Sodium Hypo Chlorite
- PH correction Chemicals
- Bromine tablets
- Degreaser
- Biocide
- Coagulant

PRODUCTS

- Brackish water RO systems
- Sea water RO plants
- Containerized RO/UF systems
- Ultra-Filtration systems
- RO chemicals
- BWRO/SWRO – Antiscalants
- Micro biocide
- Membrane cleaners – Acidic, Alkaline
- ENZYMATIC membrane cleaners
- Membrane preservative
- Coagulant for SDI control
- Dosing pumps
- BWRO/SWRO membranes
- Pressure vessels
- CIP systems
- Cartridge filters
- Sand and multimedia filters
- SDI testing
- Cleaning chemicals
- Flushing and passivation chemicals
- Zinc based inhibitors
- Silicate and phosphate inhibitors
- Phosphonate corrosion inhibitors
- Multi-Metal Corrosion Inhibitor
For systems having dissimilar
metals in the system
- Non-Oxidizing Biocide
- Iron dispersant
- Oil and silt dispersant
- Chemical dosing tanks
- Specialty chemicals for low
hardness systems
- Antifoulants, defoamers
- Oxidizing biocides
- Chlorine dioxide systems
- Laboratory testing's
- Automatic dosing system
- Bag filters
- Water meters
- On field water testing
- Potable tanks and network
disinfection
- Calcium Hypo Chloride
- TICCA Tablets
- Sodium Hypo Chlorite
- PH correction
- Bromine tablets
- Degreaser
- Biocide
- Cogaulant
- Pool test kit
- Dosing pumps
- Online controllers
- Pool Circulation pumps
- Sand lters
- Pool lights and ladders
- UV disinfection systems
- Electrolysis, salt chlorination
